

Mayor's Message

The City of Vergas comprehensive plan is starting to take shape following the initial input session held on October 19th. However, this is just the beginning and a lot more input is needed, especially from young families and youth. A survey will be distributed and additional group sessions will be held to continue to gather feedback regarding areas as public services, land use, housing, transportation, economic development, recreation, and community values; to name a few. On the City of Vergas website there is a Comprehensive Plan folder that will provide ongoing updates.

What a community will look like in the future depends on decisions we make today! We need your input so we can create the plan together and develop what is truly a shared vision.
